

DD/R-550-63

1 April 1963

MEMORANDUM FOR: AD/OEL

SUBJECT :

25X1A

25X1A 1. I should like to commend your office, and particularly all those individuals who were specifically involved, for the work done on . This project was created in a very short period of time and carried through very effectively from all points of view. It involved co-ordination with several other Government agencies in order to insure that not only was the operation carried out effectively but also that the data were collected efficiently by a wide variety of different organizations.

2. The preliminary assessment of the results indicates that it was very successful and should make a significant contribution to our national intelligence. The entire project reflects favorably on the intelligence community, CIA and particularly OEL. Please pass on my appreciation to project officer, and to all others who participated.

25X1A

HERBERT SCOVILLE, JR.
Deputy Director
